T. G. TAYLOR. Resolutions adopted by the Union State Convention of Nevada, January 1st, 1864.

We, the members of the Convention of Union men of Nevada Territory, believing that it is a matter of vital importance that the Government of the future State of Nevada should be administered by men of large capacity, unbending i istered by men of large capacity, understand in tegrity and unquestioned patriotism, and that it is the bounden duty of every citizen to sustain at all times, and particularly at this time of our country's peril, the Government of the United States and its legally constituted authorities, against all opposers, whether at home or abroad, ist. That the Union party affirms its devoted

loyalty to the Government of the United States

of America.

2d. That the Union party of Nevada stands true to the country all the time, and bids eternal defiance to the rebellion and all its supporters, backers, allies, sympathizers and friends.

3d. That thanks to the God of buttles, and the immortal valor of our national arms, the war is a success; that it must never cease until the supreme authority of the Government shall be fully established throughout the borders of the republic and our flar floats in neace and triumph over and our flag floats in peace and triumph over

very State.
4th. That inasmuch as the national administration is the executive representative of the Government upon which, under the constitution, de ernment upon which, under the constitution, de-volves the duty of preserving the integrity of the Federal Union, and enforcing the laws throughout our entire public domain, and inasmuch as this duty cannot be successfully performed without the cordial support of the prople of the loyal States, we therefore pledge to the support of the Federal Administration, our united aid in suppresent Administration, our amount and in sup-pressing the present infamous rebellion, and en-forcing the laws, at whatsoever sacrifice of blood and treasure, declaring that the Federal Union SHALL not be dissolved, or that the old flag shall NEVER be lowered in the face of the Union's foes.

FOR UNITED STATES SENATORS, JAMES W. NYE HENRY EDGERTON.

THE NEWS.

We have telegraphic advices from the East up to yesterday. The news is not of great interest or importance. Among other matters, we notice that the celebrated land case, in which Doll claimed the whole town of Red Bluff, California, has been decided finally by the Supreme Court of the United States against Doll. and in favor of the citizens. There is undoubtedly great rejoicing to-day in that town. The funeral of Archbishop Hughes was celehrated with great pomp and ceremony. We have an account of a successful cavalry fight in North Carolina. The proceedings in Congress are interesting.

RELIGIOUS INTELLIGENCE. - Forbe,s of the Humboldt Register, gravely informs us that we were mistaken in supposing that Jesus Christ was born on the 25th of December, A. D., 1. We are much obliged to ion that it would puzzle the old Herodotus of Humboldt to prove that the Savior was not of supplies, if Johnston should remain at prove that he was. We shall continue to will endeavor to get another fight out of that celebrate the 24th as Christmas Eve, and write "paregories" on the same, and the old heathen of the desert can continue to hold to the Saturnalia.

FOLSOM TELEGRAPH. - This paper has passed into the hands of P. J. Hopper, a sound Union War Democrat. The late O. D. Avaline was a pleasant, social man and a forcible writer; but, under his control, the Telegraph was no friend to the cause of the nation. His "democracy" was too strong for his patriotism. While we regret the death of Mr. Avaline, viewed in the light of a man of youth and talent, whose loss is a sad bereavement to the circle of his family and friends, we hail with satisfaction the change of sentiment in the columns of the Telegraph.

Nor on Ir.-Gen. C. H. S. Williams, one of the candidates nominated by the bolters for Senator, announces in a card that he is not a candidate for any office. He might as well let his name remain on the ticket. It will amount to nothing, and it ought to have a few names of respectability and intelligence upon it, just to give a "tone" to the thing. They have stuck a few of the Union candidates on and they don't care anything do not object. Under such a system only

GENERAL BURNSIDE.-The country is not to lose the services of General Burnside. At the earnest solicitation of the President, the hero of East Tennessee has withdrawn his resignation. He will return to the command of the Department of the Ohio, relieving General Foster. General Stoneman has been sent to the West, where he will be Chief of

S. F. Custom House.-Collector James issued a circular on the 6th, requiring all Custom House officers to report within ten days what knowledge they have of their official duties; also, weekly and monthly, the character and amount of duties performed.

LOOK OUT!-Counterfelt silver coin, which as appeared in large quantities, is believed to be manufactured in San Francisco. It may be detected by observing the defective SHORT MEMORY.

Judge Ralston is getting old; he says that he is admonished of that fact; and he is admonishing everybody else of it, in tones unmistakable. Among the strongest evidences of his senility and approaching dissolution, is the fact that his memory has utterly failed him. The events of his childhood probably arise vividly before his mind's eye, but those of yesterday fade away and are forgotten. It is truly melancholy thus to behold the wreck of a great mind. The Judge has forgotten enbeen defeated several times. He says that this Territory and California.

The Judge has even forgotten the events speech and his own pledges, which the regular phonographic reporters took down in black and white as they fell from his lips, thus:

I am admonished that Time, which brings period to all earthly life, must soon finish my earthly career. If it be your pleasure that I should discharge the duties of this office [Supreme Judge] for a while, I shall certainly do so with the utmost endeavor to discharge those duties correctly, with strict reference to those great principles of law which I have made the study of my life, with paramount reference to the rights of my country. If it be your pleasure not to place country. If it be your pleasure not to place me there, be it so. I am content. Whatever may be the determinination of the Convention I shall be quite willing to abide it. I shall acquiesce, and shall support its nominees. I may state, too, that I shall support the Constitution. Why, sir, I helped make the Constitution. I would as soon cast off my child as cast a vote against the Constitution. I think that Constitution is the tion. I think that that Constitution is the best Constitution that was ever presented to a people for their support as the organic act of their Government. I shall support it with all earnestness and energy whether I am nominated or not. Gentlemen, I leave every-

The Judge has cast off the child of his buzzom and adopted Charley Bryan and Tom Fitch, and his solemn pledge to support the Constitution, "whether nominated or not" he now utterly disregards. Poor old man!

MENDACITY.

The contemptible, word-cating, vaccilating black-mail sheet published by John Church & Co., and edited by, the devil only knows who-is striking off upon another tack. Having reduced itself to the lowest level of ignominy, and become the scorn and laughing stock of the whole Territory, it now seeks to hide its own disgusting enormity by filling its columns with wholesale lies and abuse of papers which pursue evenly and consistently the course, which in its days of decency and respectability, the Union marked out for itself, but in a fit of spleen and disappointment has seen fit to abandon. It yesterday made a mendacious charge against us. We answered it; referring to the authority which they quoted, for refutation. We scorned to put our oath against the naked assertion of a paper, which, by its own confession, has been lying to its readers for the past three months. The proprietors of the Bulletin, similarly assailed, went before a Notary Public and made oath that the editor of vesterday's Union was a liar. Perjury is vits this morning. Verily, we have touched pitch and have been defiled. "We have fought with a chimney-sweeper and have become blacked withal; we have a skunk." We will retire for a season and ventilate ourselves.

ton correspondent of the St. Louis Republican, writing under date of December 8th, says that at that period there was a heavy pressure at the Capital against putting our principal armies into winter quarters. Leading supporters of the Administration maintained that our victories had so greatly reduced the strength of the rebellion that vigorous operations during the winter season would be decisive. They argued that inclement weather, bad roads and other obstacle were to be encountered by the rebels as well as by our armies, and that our troops were better provided against the severities of the season. The correspondent anticipated that these arguments would prevail at the White Forbes for the information, but are of opin- House. It is just possible that after Chattanooga has been converted into a vast depot born on that day, as much as it would us to Dalton, only thirty-eight miles distant, Grant beaten army; but if Johnston should fall back behind the Coosa, the army pursuing him would have serious difficulties to surmount in advancing to that point. The country is broken and intersected by numerous streams which render a long line of communication precarious. There is more to be gained by pushing our arms up the Savannah to Augusta, whence, when Grant enters upon the campaign in earnest, communica tion may be opened with Atlanta. As for the new campaign in Virginia, it ought not to commence until the Army of the Potomac and the forces in General Butler's department are sufficiently powerful to insure success. Delay is vexatious and wasteful, but there is work enough to be done on the Southern coast to make the winter disastrous to the enemy.

TAXING THE MINES .- The telegraph from the East, several weeks ago, informed us that the Secretary of the Interior recommended to Congress the taxing of the mines. The report heretofore published did not convey a correct idea of the recommendation made by the Secretary. He only suggests that the net proceeds of the mines be taxed. To a proposition of this kind we understand mine owners those mines which are productive would be taxed, and those who own such mines in California and Nevada, we are assured, are entirely willing to pay a tax of the character named, provided Government will protect them in their possessory title to mines they are working on public land. Even those in the Navada Convention who opposed taxing the mines expreseed a willingness to have those pay a tax which were productive; and were such a plan as the Secretary of the Iuterior proposes adopted in Congress, it would most likely be inequiesced in without serious opposition from any quarter. Where mines pay from five hundred to twenty-five hundred dollars per month to their owners, the latter ean well afford to pay a liberal tax on the net

proceeds to the Government. POLITICAL.-Gen. Williams having de clined to run on the Bolter's ticket as a State Senator from this county, R. E. Arick, Mayor of Virginia, has been put in his place.

ary 2. Why, bless you, Forbes, the Virginia Union, since it failed to get the State Printing, has been as sore-headed as a little chicken in a strange coop. If he has been anything paper whose only excuse is a disappointment else for years, it is news to the people of in getting office, the people will fail to " see the point."

CORRECTION .- Mr. Thomas Fitch called of the late Convention, and of his own to see us to-day, regarding some personal reearnest endeavors to obtain a nomination | flections cast upon him in our paper yesterat its hands. He has forgotten his own day, in replying to some untruths published in the Virginia Union against us. We connected Mr. Fitch in our reply, because we believed him the editor of the Union and the article in question. As he disclaims the authorship, or any complicity therewith, we take pleasure in withdrawing the remarks made concerning him.

IJ" And while we are astonishing the people of the States east by our contributions to the relief funds for patriot soldiers, and while we are augmenting the national mili-tary force by large numbers of volunteers."

Any reference to the stupendous sum (\$000) contributed by the bolter fandango, the other night, at Sutliffe's Hall, will be considered odious and irrelevant.

IDAHO SOUND .- The Acting Governor of this Territory, William B. Daniels, in his Message, delivered before the first Legislative Assembly lately, remarked as follows: The child is born who shall see railroads and telegraphs connecting our great centers of trade with the Atlantic and Pacific occans; who shall not only see the inexhaustible min eral wealth of this country developed, but ancient channels, and the road across this continent become the great highway of the world. He shall see slavery—that foul stain upon our country-blotted out forever, and all danger from domestic insurrection and foreign intervention pass away with the cause that produced it. He shall see States of the Pacific rival those of the Atlantic seaboard in population and wealth; shall see a city located on the western side of the continent, by the Pacific ocean, surpassing in trade and magnificence ancient Tyre when she sat as a queen and her merchants were princes; and cities in the interior surpassing Palmyra and Persepolis in the days of their glory-splendid, not with heathen temples and palaces decorated with barbaric pomp and pride, but with churches dedicated worship of the God of our fathers, and institutions of learning devoted to the education of our youth in arts and science, morals and religion. He shall see the Capital of the nation removed to the valley of the Mississippi not four days journey from either ocean, from the reach of any invading foe, and easiaccessible to all our countrymen. He shall see his country more united and power-ful than ever before, leading all the nations in the pathway of political civilization, and imparting to all the millions beneath her sway a degree of prosperity and happiness enjoyed by no other people beneath the sun. Then shall the population of the mountain degree of prosperity and happiness by tens of millions; and States be counted Idaho, one of the last of the Territories to be

rganized, shall be one of the first of States. PRESIDENT LINCOLN.-The Washington correspondence of the Boston Journal, speaking of the personal habits of Mr. Lin-coln, says: Mr. Lincolu is an early riser, and he thus is able to devote two or three hours every morning to his voluminous private correspondence, besides glancing at a morning paper. At nine he breakfasts, then walks over to the War Office to read such ly some are withheld), and to have a chat one step further than the slanderer likes to take, and we have not counter-affidation, in which he takes great interest. GREENBACKS.-The Sacramento corres on this subject: It is rumored that a large andholder in Butte county intends to make tender of greenbacks in payment of a heavy amount of taxes due by him. If the tender s refused, he will carry the case up to the preme Court, should the inferior Court decide against him, and obtain from the highes judicial tribunal in this State a decision fully meeting all the points of the question which were evaded when Judge Field was on the bench, and when Attorney-General Pixley made an argument against greenbacks and his own private convictions. The determinations to tinker with the currency question this winter is very strong. Those who favor the enactment of a law making th National currency receivable for taxes contend that in reality such a law is not nee and affect to believe that the Supreme Court will be bound to decide in favor of Governpaper if such a case as the above ment

mentioned comes squarely before it. INSANITY IN CALIFORNIA .- The disproportionate number of persons laboring under different stages of mental aberration in our midst, is a matter of remark among those who have been residents but a short time. We have never heard any predominating cause specified, but observation and a knowledge of the history of the State from the discovery of gold up to the present time, points out to the mind the mad struggles among reverses, some of hope and some of despair, in the wild turbulent sea of speculation; then, the dissipation that is so univer-sally concomitant with this abnormal excitement, until the moral man falls into a chronic obliquity which ripens into a low obliquity which ripens into a low state of insanity. Hardly a day passes that one or more of these unfortunate persons are not taken charge of by the hand of public benevolence. Yesterday, a man evidently insane, was playing his crazy pranks on Powell street, and on Saturday a man named Manuel was found in the same condition.—

LAKE SUPERIOR SILVER .- The people about Marquette, Lake Superior, are wild over the rich deposits of silver in their neighborhood. In one locality it was be-lieved that fifty tons of ore could be got out in a week. The veins are usually well defined and of a character to be easily mined.

JOHNNY REB was looking at one of our guns, and remarked that he "didn't think that the Yanks would use them much longer." "Why not?" inquired one of the Feds. "Because," said he, "the Confederacy is getting so narrow that you'll fire clear over it and hit your men on the other side."

IMPORTS AND EXPORTS.-Fifty-two ves sels from abroad entered this port last month, and the freight on these cargoes amounted to \$681,928. During the same period thirty-eight vessels left port with cargoes invoiced at \$1,064,204 28.

FATAL.—A man named John Carlin was instantly killed, January 5th, at Nevada, by the falling of a portion of a brick wall.

The Finance Committee of the Senate is Fessenden, Chairman; Sherman, Howe, Cowan, Clark, Van Winkle and Conness. Nothing seems to be known of arrangements recently effected by the Government authorities and Butler, in relation to the ex-change of prisoners, further than that he (Butler) has ample authority to act in such manner as will best secure the object. A bill will be introduced in Congress re-

pealing that portion of the Confiscation Act which limits the possession of property sold to the natural life of the owners. The steamer Roebuck captured the British schooner Kingdom, off Swanee river, Flori-da, with a valuable cargo.

WM. W. DENNY, Sec'y. Gold Hill, N. T., Jan. 4th, 1861. ja8 td Carson Gold and Silver Mining Carson Gold and Silver Mining Company.—Notice is hereby given that on THURSDAY, December 31, A. D. 1863, at one o'clock, F. M., in front of the company's office in Gold Hill, there will be sold at public anction so many shares of the capital stock of the Carson Gold and silver Mining Company, standing in the following parties' names as will be sufficient to pay the assessments due thereon, together with the costs of sale and advertising.

box for the U. S. Sanitary Fund, and that all Union men exert themselves to raise as large an amount as possible, as the Eastern Treasury is very low.

I then propose that the Treasurer of each precinct forward the amount (contributed to J. L. Black, of the firm of Howell, Black & Bro., Virginia, Treasurer of the Storey County Arsociation, giving the number of votes that made the contribution, and county to which it belongs. Said sums, as received, will be credited to its respective county, and after all are in, a bar of sliver will be made equal to said amount, and have stamped upon its face: Names, Jas W Wright... Cert's. 25,26,27 M Tenny..... stamped upon its face:
.....votes of.....eounty, sends this offering to the U. S. Sanitary Commission.
The number of votes and value will be given in full, so that each county will receive its proper credit; the whole then to go forward as a contribution of Nevada—State or Territory as it may be derided—to the U. S Sanitary Commission.
Officers of other counties, it is to be hoped, will second the proposition by action, and where there are precincts and no officers, Union men will please see that it is done. By our contributions to this noble cause can they judge of our patriotism.

THE STOCK INTEREST .- Notwithstanding

the evidence before as, but few have any real conception of the magnitude of the stock in-

conception of the magnitude of the stock in-terest of the country. During the last year, some four thousand certificates of incorpora-tion of mining companies were filed in the office of the Secretary of State. On an aver-

age, each of these certificates represents two

lions shares. Suppose each share is assessed twenty five cents monthly, (and no mine can be worked for less than that amount,) the

sum of two millions dollars per month will be called for to keep the wheels moving. We

presume that, in reality, a larger sum than this is called for. The mines must do some-

thing to return this sum. At present, the yield from quartz mines (silver and gold)

is about one million dollars per month. It is calculated, however, that by next spring, this sum will be more than tripled.—Call.
